

Active Care[®], The Exclusive, Self-Renewing, Odour-Destroying Carpet Treatment

Active Care[®] is an environmentally friendly carpet treatment specially formulated to destroy all common household odours, pet odours, even cigarette smoke.

Active Care[®] is not a deodorant that masks odours but instead is a breakthrough technology that chemically absorbs and decomposes gases from the source of the odour over a period of time.

Active Care[®] is self-renewing, will withstand numerous cleanings and excessive abrasion while still maintaining its odour destroying abilities.

- Environmentally friendly.
- Destroys common household odours, pet odours, even cigarette smoke.
- Withstands repeated cleanings.
- Exclusive carpet treatment.
- Protects your customers investment.
- Adds value to your carpet selection offerings.
- Unlike other products in the market which may disappear after the carpet is steam cleaned, Active Care[®] is self-renewing and doesn't disappear.
